## CP Biology Visual Vocabulary

To help you learn the terms involved in understanding cell division, complete the following chart. Define each term in your own words, then create a 'visual definition' – draw a picture to help you learn the term better. The terms and chapters are provided; you need to fill in the page number.

	Term/page #	Definition	Illustration
Chapter 6	Somatic cell		
	Gamete		
	Homologous chromosomes		
	Autosomes		
	Sex chromosomes		
	Diploid		
	Haploid		
	Gametogenesis		

	Polar body		
	Meiosis I		
	Meiosis II		
Chapter 5	Chromosome		
	Histone		
	Chromatid		
	Chromatin		
	Telomere		
	Mitosis
